CONSUMPTION AND ASTHMA CURED.

DR. H. JAMES, discovered, while in the East Indies, a certain cure for Consumption, Asthma, Bronchetis, Coughs, Colds, and General Debility. The remedy was discovered by him when his only child, a daughter was given up to die. His child was cured, and is alive and well. Desirous of benefitting his fellow mortals, he will send to those who wish it, the receipt containing full directions for making and successfully using this remedy, free, on receipt of their names with stamp for return postage. There is not a single symptom of consumption that it does not at once take hold of and dissipate. Night sweats, peevishness, irritation of the nerves, failure of momory, difficult expectoration, sharp pains in the lungs, sore throat, chilly sensations, nausea at the stomach inaction of the bowels, wasting away of the muscles. Address, O. P. BROWN & Co. 32 and 34 John Street. New York.

THE WILSON SCHOOLS,

For Young Ladies and Gentlemen.

BY Mr. & Mrs. RICHARDSON,

Aided by a full Corps of Assistant Teachers.

THE EXERCISES OF THE ENSUING Scholastic Year will be resumed on Thursday, the first day of September. Applicants examined for classification on Thursday and Friday, when all should be present who contemplate pursuing a Regular Course of Steady. Ay Grammar department will be added to the Male School the coming session. The object of which is to supply the grammatical instruction of all instructions of Learning—namely, Regular Classical Training. Among the numerous exercises of this Department, designed to please as well as to instruct, are the small and broad sword exercises, [illegible] drill, upright and parallel bars, &c., &c. Mr. H. Prentiss Tucke, who will become associated with the Schools as Professor of Mathematics. Practical surveying and Civil Engineering, will superintend his department. He will also give instruction in the use of the Compass, Transit, Theodolite, and Level; also in plotting Surveys, Profile making, and the estimate of earth work and Masonary. A Calisthenic Department will also be added to the Seminary, to correspond with the Gymnasium. It is designed by the friends of these Institutions to lay the foundation of a Polytechnick School for young Gentlemen, and to establish beyond contingency, a school for Young Ladies, in which, after the completion of a Regular course in [illegible] they can be taught the Fine Arts as a speciality. To this end vigorous plans are in operation, and Buildings are in process of erection, which in all their arrangements, furnishings and appointments are to be of the first order, and especially designed for their purpose. The Male and Female Departments are separate. Sectarianism theoretically and practically excluded. For the plan of the Schools in full, address at Wilson, N. C.

D.S. RICHARDSON, A. M.,
Principal of the Wilson Schools,

THE GLOBE.

THE OFFICIAL PAPER OF CONGRESS.

I PUBLISH now my annual Prospectus of the Daily Globe, and the Congressional Globe and Appendix, to remind subscribers, and inform those who may desire to subscribe, that Congress will meet on the first Monday of next December, when I shall recommence publishing the above-named papers. They have been published so long, that most public men know their character, and therefore I deem it needless to give a minute account of the kind of matter they will contain.

The Daily Globe will contain a report of the Debates in both branches of Congress as taken down by reporters equal, at least, to any corps of shorthand writers in this, or in any other county. A majority of them will, each, be able to report, verbatim, ten thousand words an hour, while the average number of words spoken by fluent speakers rarely exceeds seven thousand five hundred words an hour. When the debates of a day do not make more than forty-five columns, they will appear in the Daily Globe of the next morning, which will contain, also, the news of the day, together with such editorial articles as may be suggested by passing events.

The Congressional Globe and Appendix will contain a report of all the Debates in Congress, revised by the speakers, the Messages of the President of the United States, the Annual Reports of the Heads of the Executive Departments, the Laws passed during the session, and copious indexes to all. They will be printed on a double royal sheet, in book form, royal quoto size, each number containing sixteen pages. The whole will make, it is believed, between 3,800 and 3,900 pages, the long sessions for many years past having ranged between those numbers, and the next session will be a long one. This I believe is the cheapest work ever sold in any country, whether a reprint, or printed from manuscript copy, taking for data the average number of words of the long sessions since the year 1848. The average number of pages is 3,876, and the average number of words on a page is 2,397, consequently the average number of words of a long session is 9,290,772. As I have sold to subscribers that number of words for *six dollars*, it follows that they paid less thn six and one half cens for every 100,00 words I hava furnished them, while I have paid my reporters $6 29 for every 2,397 words, of this work, in manuscript.

The coming session will, without doubt, be an unusually interesting one, because the candidates of the respective parties for President and Vice President of the United States will be nominated before it closes, and, therefore, the debates will be mostly on such political questions as, it may be thought, will tend to influence public opinion in regard to the persons to be supported for these offices, and the Globe will be, as has been for many years past, the only source from which the full debates of Congress can be obtained.

The Congressional Globe and Appendix pass free through the mails of the United States, as will be seen by reading the following Joint Resolution passed by Congress the 6th of August, 1852:

Joint Resolution providing for the distribution of the Laws of Congress and the Debates thereon.

With a view to the cheap circulation of the laws of Congress and the debates contributing to the true interpretation thereof, and to make free the communication between the representative and constituent bodies:

Be it resolved by the Senate and House of Representatives of the United States of America in Congress Assembled, That from and after the present session of Congress, the Congressional Globe and Appendix, which contain the laws and debates theseon, shall pass free through the mails so long as the same shall be published by order of Congress; Provided, That nothing herein shall be constructed to authorize the circulation of the Daily Globe free postage.

TERMS:

For a copy of the Daily Globe, during the Session, $5 00
For one copy of the Congressional Globe and Appendix, during the session $6 00
For two copies ditto, when ordered at the same time $10 00

No attention will be paid to any order unless the money accompany it.

Bank notes, current in the section of the country where a subscriber resides, will be received at par. The whole or any part of the subscription may be remitted in postage stamps, which is preferable to any currency, except gold or silver.

I cannot afford to exchange with all the newspapers that desire the Globe; but I will send the Daily Globe during the session to the editors of those papers who publish this Prospectus three times before the first Monday of next december, and send to me one number of their paper containing it, marked with a pen to direct my attention to it.

DR. JOHNSTON.

THE founder of this Celebrated Institution offers the most Certain, Speedy, and only effectual remedy, in the world for Gleets, Strictures, Seminal weakness, Pains in the Loins, Constitutional Debility, Impotency, Weakness of the Back and Limbs, Affections of the Kidneys, Palpitations of the Heart, Dyspepsia, Nervous Irritability, Disease of the Head, Throat, Nose or Skin; and all those serious and melancholy Disorders arising from all those Destructive habits of youth which destroy body and mind. These secret and solitary practices more fatal to their victims than the song of the Syrens to the Mariners Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible

Young Men

especially, who have become the victims of Solitary Vice, that deadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with all confidence.

Marriage.

Married Persons, or, Young Men contemplating marriage, being aware of Phisical weakness, Organic Debility, Deformities, &c., should immediately consult Dr. J., and be restored to perfect health.

He who places himself under the care of Dr, Jhonston may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physcian

Organic Weakness

immedietely cured, and full vigor restored.

This disease is the penalty most frequently paid by those who have become the victims of improper indulgences.—Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue.—Now, who that understands the subject will pretend to deny that the power of Procreation is lost sooner by those falling into improper habits than by the prudent. Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to the body and mind arise.—The system becomes deranged, the physical and mental powers weakened, nervous debility, dyspepsia, palpitation of the heart, indigestion, a wasting of the frame, cough, symptoms of consumption, etc.

Nervous Debility.

Weakness of the system, Nervous Debility and premature decay generally arise from the Destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who who are most apt to become its victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption, also, those serious mental effects, such as loss of memory, depression of spirits, or peculiar fits of melancholy, when the truth is, they have been caused by indulging in pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their country, a pleasure to their friends and ornaments to society.

N MERCURY OR NAUSEOUS DRUG USED.

DR. JOHNSTON.

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the first Hospitals of London, Paris, Philadelphia, and elswhere, has effected some of the most astonishing cures that were ever known, many troubled with ringing in the head and ears when asleep great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

A Certain Disease.

When the misguided and imprudent votary of pleasure finds he has exhibited the seeds of this painful disease, it too often happens that an ill-timed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the unconstitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains, in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till as last the palace of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commisseration, till death puts a period to his dreadful sufferings by sending to "that bourne from whence no traveler returns," To such, therefore, Dr. Johnston pledges himself to preserve the most inviolable secresy, and from his extensive practice in the first hospitals in Europe and America, he can confidently recommend a safe and speedy cure to the unfortunate victim of this horrid disease.

It is a melancholy fact, that thousands fall victims to this dreadful poison, mercury, ruin the constitution and even send the unfortunate sufferer to an untimely grave, or else make the residue of his life miserable.

Take Particular Notice.

Dr. J addresses all those who have injured themselves by private and improper indulgences,

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pain in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irratability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

Mentally—The fearful effects upon the mind are much to be dreaded: Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons, of all ages, can now judge what is the cause of their declining health. Losing their vigor, becoming weak, pale and emaciated have a singular appearance about the eyes, cough and symptoms of consumption.

Dr. Johnson's Invigorating Remedy for Organic Weakness.

By this great and important remedy, weakness of the organs are speedily cured, and full vigor restored Thousands of the most nervous and debilitated, who had lost all hope, have been relieved. All impediments to Marriage, Physical or Mental Disqualification, Nervous Irritability, Tremblings and Weakness or exhaustion of the most fearful kind speedily cured

Dr. Johnson

Young Men.

Who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions, or at school—the effects of which, are nightly felt, even when asleep, and if not cured, renders impossible, and destroys both mind and body should apply immediately.

What a pity that a young man, the hope of his country, and the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequences of deviating from the path of nature, and indulging in a certain secret habit. Such persons before contemplating

Marriage

should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another, becomes blighted with our own.

N. B.—There are so many ignorant and worthless Quacks advertising themselves as Physicians, ruining the health of the already afflicted, that Dr. Johnston deems it necessary to say, especially to those unacquainted with his reputation, that his credentials or diplomas always hang in his office.

ENDORSEMENT OF THE PRESS

"The many thousands cured at this institution within the last fifteen years, and the numerous important Surgical Operations performed by Dr. Johnston witnessed by the reporters of the papers and many other persons, notices of which have appeared again and again before public, besides his standing as a gentleman of character and responsibility, is sufficient guarantee to the afflicted.

SCOTTISH AMMRICAN JOURNAL

SECOND VOLUME,

6th November, 1858.

IN announcing a new volume of the SCOTTISH AMERICAN JOURNAL, the Proprietor begs to call attention to those features of the paper which have already secured for it a large share of support, and which ought to commend it to the patronage of a still more numerous class of readers

The special feature of the paper is that it is a SCOTTISH journal containing notices of every event occurring in Scotland that can be regarded as of the least interest to natives of the country now residing on this continent The news of the whole country is carefully collected and condensed, so that no event which it concerns Scotchmen to know is ever ommitted from the columns of the paper. Articles relating to Scottish subjects original and selected, are also published from time to time and the more special character of the Journal is sustained by literary features of national interest in the form of tales, historical and miscellaneous sketcees anecdotes and poetry.

While thus national in its character so far, these specia features occupy comparatively limited space in the eight large pages of which the paper consists, three-fourths of which are devoted to news and other general matter calculated to be of interest to all classes of readers, and not to Scotchmen alone. A carefully compiled epitome of intelligence from England, Ireland the continent of Europe, and all parts of the world is given in every number, with extracts from the leading articles of the British Journals on the most interesting public topics of the day.

With a view to increase the popular interest of the "Scottish American Journal," and to add to its value as a family paper arrangements have been made for a series of attractive tales founded chiefly on subjects connected with Scottish life. The first of these stories, entitled "Clara Howard; a tale of the Crimean War," commences with the first number of the new volume. A considarable instalment of the story will be given in every number till it is completed, and will form interesting reading for the winter evenings alike for old and young. It will be followed by a succession of other tales of equally popular character.

The Daily Press.

On or about the first day of January, 1860, I shall commence the publication of a paper, in the city of Raleigh, to be called "THE DAILY PRESS," which I propose to continue until the close of the present session of Congress; and if, at the expiration of that time, I receive sufficient encouragement, I shall make it a permanent paper.

The necessity for such a paper in this city, is apparent to every one. The exciting times demand that our citizens should be informed daily of the transpiring of events abroad, and there is no mode of doing this, but by issuing a daily paper, containing telegraphic dispatches of the latest news, up to the moment of going to press.

I am now endeavoring to consummate arrangements with the Telegraphic Company by which I may get a report of each day's proceedings of Congress, the foreign news, and market reports, twenty-four hours in advance of the mails. To do this will incur a heavy outlay on my part, which I expect to realize, however, from the citizens of Raleigh, Fayetteville, Hillsboro,' Franklinton, Henderson, Warrenton, Goldsboro,' Greensboro', and of she various post-offices along the lines of the Railroads.

It would be a shame if the city of Raleigh, alone, did not amply support of a Daily, and I most earnestly appeal to the citizens to come forward promptly and energetically and do it. I do not expect to make money by the porject; nor do I wish to lose money. All I ask, is a sufficient patronage to enable me to pay for my telegraphic reports.

I ought to, and must have one hundred and fifty names in Raleigh, and a large list at all the places named above.

TERMS:

Payable on delivery of first number.

☞ One hundred and fifty names will secure the publication of the "DAILY PRESS,"

All that I now ask of my friends is, that they will send me their names immediately [without the money] so that I can determine by the first of January what I shall do. The money is not expected until the appearance of the first number.

WEDNESDAY MORNING, JANUARY 1, 1860.

CASH SYSTEM.—*From and after the 12th day of August* none other than cash subscriptions will be received for the *Daily or Weekly North Carolinian*, and the names of all persons who have not paid their arrearages will be stricken from our mail books on the first day of January next. NOTICE.—All persons are *expressly prohibited* from having papers from the Carrier, either by single copy or contract.

THE CHARLOTTE BULLETIN.

So, so, friend Bulletin, you are a little ruffled at our kind rebuke with refference to your strictures upon the Democratic party, for the resolutions of the White Oak convention. You ask us if we intend to read you out of the party—or giving your own words, which we here do—we will endeavor to answer:

"Now, Mr *Carolinian*, as you have gone so far as to express, precisely, the sentiments advanced by the "Bulletin," we cannot imagine why it was placed side by side with the Herald's intemperate criticism." Surely, you do not set yourself up as the judge of our orthodoxy. You will not undertake to read a veteran out of the ranks in which he has long and faithfully served as a full private, simply upon the ground that he will not shout and throw up his cap whenever a sharp or cutting sentiment is expressed. We hope not."

Now, friend Bulletin, we are glad to know that we agree so much, and that our sentiments are entirely alike. But we do not intend to read any one out of the party except he write something of that nature himself, *then* we will read his writing and if it places him beyond the pale it is not our fault But we never understood the Bulletin as standing in the ranks—we had always considered it as upon a scouting expedition—not governed by the motions of the main army, but simply firing a shot here and there sometimes at its *alledged* opponents or its *alledged* comrades.

In the article upon the Bladen democracy, we could see nothing that would indicate the denominating of the democracy as the party to which the Bulletin belonged; but, on the contrary, the democracy are spoken of as a *third* party. The fact of it is, the Bulletin shoots too wide of the mark to be a party paper, although we acknowledge that it is sound and true in every other respect and worthy of confidence.

A NEW BRANCH OF STUDY.—A friend travelling recently in the country, overheard a couple of newly married folks reading to each other an advertisement of a school, in which the various branches of study and the prices of each were enumerated. He naturally surmised that they were prudently anticipating the day when, from an increase of family, they would have use for schools. But he was diverted from this train of thought by hearing one of them read the phrase "Contingent Fund, 50 cents," innocently inquired what kind of a study was that? To which the other gravely replied, that she did'nt know!

☞ The Democratic Convention at Pittsburg on the 25th ult., was one of considerable excitement The Post gives a full description, which shows that its advocacy of Mr Douglas has not accomplished much. A resolution in favor of Douglas for President was tabled by a vote of 73 to 31. So much for old Pitt!

☞ The Democratic Pioneer of Elizabeth city comes to hand containing the valedictory of Dr. J. B. Godwin, the late talented and able Editor. He has resigned his charge into the hands of William Brenen, Esq., a gentleman of talent who will doubtless do good work in the cause during the ensuing campaign. The Pioneer is one of our best papers and is bound to succeed.

☞ The New York Tribune says, that God made man to reside in the open air. It would be well for the readers of the Tribune, were they blessed with a good Northern breeze on opening that paper. The stench of Black Republicanism which comes from its folds is enough to throw a horse over.

It seems that Brother Britton of the Bulletin, is about to give up Editorial *Court* esy and tie himself up. The following from the Bulletin will help us to explain:

Now that it is likely we will be blessed with a change, we do most earnestly entreat the ladies to dispense with their veils and allow their lovely faces to be seen.

Of course, ladies, Bro. B. is so near poping the question that you should allow him to make a selection. By all meals ladies, we entreat you to unveil yourselves and let *Britton*-ia rule the *sea*s.

The Wilmington Journal in speaking of the traitorous action, of the Pennsylvania represetatives, and the change of their vote to Sherman says:

"One of these changelings, the Hon. E. Joy Morris, of Pennsylvania is the person who has been rebuked by the Louisville *Journal* and its satellites as a member with a "*squad record*" upon the slavery question."

We seldom see a typographical error in the *Journal*, but, all papers are liable to it. In this case it has prevented the sence of the Editorial. It should read. The Lousville Journal and its "*Satan lights*." We always assist our friends when in an unpleasant position.

☞ The Wilmington Herald says there is a great military *spirit* in Georgia. From the tone of our cotemporary of late, in abusing the Democracy, because they did'nt vote for Gilmer, we should think there is a ——— *spirit still* in Wilmington!

WHIG MEETING.

According to previous notice, a very respectable number of Whigs and Americans assembled in the Town Hall last evening, and organized by calling E. J Hale, Esq., to the chair, and appointing R M Orrell, and B F Pearce, Esqrs., as Secretaries. A committee of five was appointed to draft resolutions for the action of the meeting. Whilst they were absent Mr McDonald of Moore, was called upon for a speech, he responded and held forth in a striking harrangue. It was characteristic for its want of point, its bitter abuse and its unqualified denunciation of the Supreme Court of the United States, together with a horrible massacre of Scripture texts. Mr McDonald alledged that the repeal of the Missouri Compromise was the cause of the agitation of slavery. The Supreme Court repealed that compromise by a decision, therefore, they are responsible for the present agitation. Of course, justice *McDonald's* legal attainments are superior to justice Taney and his associates! He deprecated the creation of geographical lines; yet, the compromise was the instrument which created that line! He was very hot upon Gilmer—said he had passed through a firery ordeal like Shaderach, Meshach and *Belchazzer* (?); he denounced the Editors who wrote against Mr G. He expected some applause but failed to get any, except an old negro who, from hearing a quotation of Scripture from him before, thought he was a preacher. There was but one thing which was excellent about Mr McD's speech, and that was—the end!

Jonathan Worth, Esq., was next called and he held forth much after the style of the North Carolina Rail Road! Mr T Fuller, Esq., held forth in a very fine, patriotic, eloquent speech, as also did Mr Kelly. The speeches of these gentlemen were really patriotic and sensible. 103 delegates were ap po inted t the State Convention.

SLEEPING WITH A DEAD PERSON.—We were put in possession of the facts of a case, a few days ago, and assured of their authenticity, which cause our blood to run cold upon every recurrence of them to our memory. A young man returning at a late hour, slightly inebriated, to his boarding place, a house in a row of buildings exactly alike in —— street, entered by mistake the house adjoining the one in which he lived. Groping his way in the dark up to the second floor, he unlocked what he supposed to be his room door, and entered. He could find no matches, undressed himself, tumbled into bed and was almost immediately in a hasty stupor. Some time in thenig ht hewas awakened by the contact of a cold body, and being sobered, was enabled to see by the rays of the moon in the bed with him a dead man! The truth flashed upon him immediately; he bounded from the bed, donned his clothes and rushed from the house, never waiting to lock the doors. The day previous a person had died in the house next to his landlady's. The body had been habited in grave clothes and locked up in the room in which the intruder found it. He had not noticed the hardness of the bed nor its scanty covering, but laid down and slept several hours with the dead body. The young man says that the experience of that night has taught him a lesson which temperance lectures never could.

FINALE OF THE CHICAGO SICKLES CASE.

The *Press* and *Tribune* relates the following circumstances, which constitute what may be termed the "finishing touch" to the Sickles case we reported last week?

Kaufkolz Runs Away with Mrs Williams. Our readers have been made acquainted with an affair occurring not long since on the West side, where an enraged and outraged husband named Williams, a young German, attempted to avenge himself *a la* Sickles, by shooting Kaufkolz. The latter received a severe wound, and, but for the brave defense made by his d——, would have been killed. Williams made a straight rush to the jail, and demanded to be committed, saying it was "a Sickle case." He evidentt ly believed, and openly expressed his wish, tha Kaufkolz would die. The latter, however, didn't die, but "on the contrary, quite the reverse," for he sent for Mrs Williams, and while the husband was cooling his rage in jail and waiting for death to avenge his wrong. Kaufkolz was enjoying the society and attendance of the frail and fickle dame, under which treatment he recovered so fast that on Thursday the guilty couple packed up their traps, with everything of Williams' that they could lay their hands on, sent to him in his cell a letter of arewell, cool as a chunk of Nova Zembla ice, and while the poor fellow raved himself perfectly frantic at this fresh phase in the affair, they were off for parts unknown.

LOCAL NEWS.

"BLACK HAWK GOLD SEEKER."

We learn that a company, of gentlemen in town have made a purchase of the above splendid horse for the purpose of improving the stock of horses in this and adjoining counties. Gold Seeker is a full blood Morgan, raised in Nayon, Canada East. We think we have never seen a more perfect model of a horse than this animal. He seems as if he were put up for a pattern of beauty and perfection. We wish the gentlemen success in their laudable undertaking.

DANGEROUS LEAP.—A young man jumped from the top of the Market House, upon the pavement, early this morning, with the design it is supposed of ending his life, he was doubtless laboring under a fit of mental aboration.

MEXICAN TRADE AND COMMERCE.

Col. Butterfield, who has a project for establishing a mail steamship line between Mexico and the United States, which he is preparing to bring before Congress, has just issued, for private circulation, a compilation, crowded with valuable information on the subject of the relations which exists between the wo countries.

The project itself, in aid of which this treatise has been drawn up, is ably vindicated in its pages; but our own attention has been fixed upon the work by the flood of light which it pours upon the condition and prospects of the trade and commerce not only of Mexico, but of all Spanish America, and the importance of opening commercial relations with those countries, by diplomacy and lines of mail steamships. It appears that, according to the records of the Mexican Government, the value of the foreign imports into that Republic at the present date is about $26,000,000, and that of the exports, £28,000,000, making a total foreign interchange of mports and exports and of $54,000,000 per annum. This commerce is distributed as follows:

Exchanges with England.	$33,400,000
Exchanges with the United States	8,700,000
Exchanges with France	5,500,000
Exchanges with Germany	2,000,000
Exchanges with Spain	1,200,000
Exchanges with Belgium	400,000
Exchanges with Guatemala, &c	500,000
Exchanges with Cuba	1,200,000
Exchanges with India and China.	1,000,000
Total.	$54,000,000

From the above statement it will bo perceived that England monopolizes over half of the entire foreign commerce of Mexico, though twenty days are required for her steamers to reach that country, while from one of our own largest ports to Vera Cruz the voyage is made in three days! The entire commercial transactions between Mexico and the United States, notwithstanding our extraordinary advantages of geographical position and the extent of our varied manufactures adapted to her market now fall short, according to the most recent date, of $8,700,000. Our exports to Mexico for the year ending September 30, 1858, were but $3,315,825. These facts, it must be borne in mind, were obtained from the official records of the Mexican Government, and as by far the greater portion of the Pacific trade is contraband and carried on by Europeans, the entire trade of the Mexican Republic, imports and exports, cannot fall much short of $100,000,000 per annum, and of this amount, England must have between sixty and seventy million, and the export of specie and bullion, mostly silver, to England from Mexico, for account of the foreign trade, is upwards of $30,000,000 per annum. These results to England are entirely owing to the overwhelming influence of her diplomacy in Mexico and her commercial system based on numerous and well-regulated lines of mail steamships.

TRAGICAL AFFAIR.

LOVERS AGREE TO COMMIT SUICIDE—ONE SUCCEEDS BUT THE OTHER IS PREVENTED,

We learned last evening, from a gentleman residing at Lawton, the particulars of a tragedy which occured at Olivet, Eaton County, on the 7th inst., at which time our informant was there on a visit:

A young man residing near Olivot, by the name of Orville Wood, had been paying his addresses to a Miss Mack, whose family reside near the village of Marshal, and they were engaged, the marriage to take place soon. The young man, with his intended, went to a party, where he indulged so freely in liquor as to raise objections on the part of the young lady's parents to the contemplated union. She informed her affianced that she had rather die than disobey her parents, and preferred death to living with him; and on Friday, the 6th, they mutually agreed that the next Saturday evening they would meet at his brother in-law's, and on Sunday evening terminate their lives at one and the same time by fire arms. The same day he returned to Marshall and purchased two pistols, which he loaded, each with a ball and seven buckshot.

At the appointed time for their meeting, Saturday evening, he was at his brother in-law's, and soon after the young lady, accompanied by her sister, drove up. Wood saw his intended leap from the cutter and approach the house, when he stepped into to the parlor placed the muzzle to his head and fired, dropping lifeless at her feet as she came in. Without a moment's delay she stepped out of doors, passed round the corner of the house, took a pistol from her pocket, and was raising it to her head, when her sister, who had perceived that something was wrong, ru hed forward and caught the weapon from her gra p. On examining it, it was found loaded with ball and shot, as fore stated. It seems that a misapprehension existed between the lovers as to the time when the tragedy was to take place—she understanding him to name Sunday, instead of Saturday evening, but when she saw that he had anticipated her, she was, as her action proved, ready for the sacrifice. The funeral of the suicide took place on Monday, the 9th.

Special Dispatch,

FOR THE NORTH CAROLINIAN.

Capital, Washington, D. C., Jan'y 31.

Senate.—Mr Hunter of Va., spoke on Douglas' resolution.

House.—One ballot was taken for Speaker, in which Pennington, of N. J., come within one vote of an election. A vote is now being taken to adjourn which of course, will put McLennan, (A. L. D.,) of Ill., in nomination to-morrow, (Friday) by the democrats.

LATER FROM MEXICO.

New Orleans, Jan. 30.—The U. S. Sloop of War Brooklyn, from Vera Cruz 24th, touched at the mouth of Mobile River yesterday, bound to Pensacola for coal and provisions. Mr McLane, our Minister to Mexico, came passenger in her, and took passage in the Moses Taylor for this city. He will remain here a week, and will then return in the Brooklyn to Vera Cruz. He has important despatches for Government; and will await telegraphic instructions from Washington.

Vera Cruz was quiet. A detachment of Marines had been stationed at Tampico and Minatitlan for the protection of American citizens in consequence of Miramon's threatened expedition to the coast.

The U S Sloop Saratoga was at Vera Cruz and the Savannah was daily expected.

Dates from the city of Mexico to the 12th, state that Miramon was preparing an expedition against Tiascala. The clergy, however, refuse to advance to him further funds for his Vera Cruz expedition, believing it to be only a ruse of his to raise money. He proposed starting on the 28th January. He again protests in a proclamation against the recent treaty.

The British Minister had presented his ultimatum demanding full indemnity to British citizens.

The Liberals have retaken all the ports on the Pacific which were captured by Miramon.

THE LATEST FROM WASHINGTON.

Washington, Sau. 30.

The Democratic Caucus was held to-night, but made no nomination. It is understood that they will concentrate their vote to-morrow on Hon. John A. McClernard, of Illinois.

It is understood here, that the Hon. Geo. Briggs, of New York, will to-morrow cast one vote for the nominee of the democratic Caucus, in reciprocation of the generous Democratic support extended his candidate for Speaker, the Hon. W N H Smith, of North Carolina. If the ballot by unsuccessful, Mr Briggs will then vote for Pennington of New Jersey.

It is reported that the Hon. Jas A Stallworth, of Alabama, who has been detained from his seat by sickness, is expected here to-morrow in time to vote.

The general impression here is, that the contest for the Clerkship, will be between Ball, of Ohio; Forney, of Philadelphia; and Uunderwood, of Kentucky.

SENATE—YESTERDAY.—Mr Nicholson made a speeh against Sewardism, urging the South to moderation.

HOUSE—YESTERDAY.—Three ballotings for Speaker. On the last necessary for a choice 118, Smith 113 · Pennington 115; scattering 6. Last night [Monday] the Democrats had an understanding that they would vote for McClernand to-day [Tuesday.

MRS. PARTINGTON AT THE FEMALE MEDICAL COLLEGE—The venerable Mrs. Partington recently paid a visit to the Female Medical College, where the manikins and other anatomical apparatus were to her explained. "And that's the accidental bone," said she, resting the tip of her black-gloved finger upon the back part of the head of the skeleton which was hanging in the lecture-room. "Wery proper name too for Ike always bumps his aqurium about in that spot when he gets hilarici ous a turning somersets or skating." "Oracies and Canticles," and she pushed her spectacles a little nearer her eyes as Dr. Gregory opened the heart of the mannikin. "La! the heart is made of oracles and canticles, is it? How proportionate the hymn 'O, may my heart in tune be found!' And don't the desecrators [she probably meant the dissecters] of the human body find more than a complimental number of these oracles in the hearts of spiritual meteors, for they are as full for oracles as the pitying dames were that they used to keep shut up in the heathen templeas."

NON-INTERCOURSE.

The following good and reliable hit is from the Augusta *Constitutionalist.*

The Savannah *Eepress* asserts that during this winter a locomotive builder of Philadelphia, has been to the South, soliciting orders, and has obtained them to the extent of fifty-six locomotives, for southern roads. The average cost of a locomotive is about nine thousand dollars; so here is one house engaging a business of more than five hundred thousand dollars in one season. while we could have the same work done within our own limits, and equally well. Comment is necessary.

And we may add, that the city council of Augusta, for the fear of giving employment to our own local enterprises or work shops, sent to Boston, or other points of the North, last summer and fall, and had the iron pipes cast for the water works. Those pipes are to be seen in almost all sections of the city, and every one of them is a commentary on the policy of the present city council in giving such work to Boston people, in preference to the capital capacity, and industry of the inhabitants of Augusta.

Pipes look upon the councilmen—councilmen look upon the pipes.

BULGING BEECHER.

Henry Ward Beecher has got so disgusted with the ultra Abolitionists of his church that they have taken up arms against him—indeed, almost expelled him. He thinks that too much Abolitionism is rather over-doing a thing which has brought such odium on the country. He is, in fact, a partial convert to another doctrine than that which John Brown practiced at Harper's Ferry, and his congregation have accordingly got "ugly"—that is, ver "black." He is for compromises that are for no promises.

THE PERSECUTION IN NOTRH CAROLIAA.

LETTER FROM A LADY TO AN OFFICER OF THE AMERICAN MISSIONARY SOCIETY.

Guilford County, N. C., Jan. 13, 1860.

At present we are circumstenced something like the children of Israel, when they started for the Land of Promise, pursued by Pharaoh and his host, with the Red Sea before them, and mountains on either hand. Still we hope to see the salvation of the Lord, relying on the arm of Jehovah for protection.

I suppose, ere this, you have seen some account of the Rev. D Worth's arrest and commitment to prison in Greensboro, Guilford County, N C charged with circulating incendiary books, &c., principally the "impending Crisis," by Helper, which seems to be attracting more attention at present than all other books put together.

Broth Worth was arrested on the 23d of last month, had a preliminary trial before three magistrates on the 24th, which resulted in his commitment to prison to await further decision at the Sprint Term of the Superior Court. There was great excitement during his trial; three lawyers appeared in behalf of the State; the prisoner pleaded his own cause in an able manner—his enemies themselves being Judges. Since then, there have been five other arrests of citizens of this county for circulating "Helper," most of them under heavy bonds the bond required of him was considered unreasonable. The first was a bond of $5,000 for his appearance at the Spring Term, which was complied with, the other was $5,000 also, requiring him not to preach at all, this is not complied with yet. Not content with the above, he was arrested again, in prison, and brought out yesterday before Jugde Dick, and bound in the sum of $5,000 to appear at the Spring Term, in Rondolph County, in March. His enemies seem determined to push the law to the furthest extremity, but the old veteran has been happy beyond desciption. and filled with joy unspeakable.

His keepers observe the strictest vigilence, not allowing even his wife to speak a word to him without witnesses being present; nor do they suffer him to write a word to any person, only what passes under their inspection. They made an attempt yesterday, during his trial, to deprive him of the means of writing at all; but finally concluded to let him have too or three sheets of paper at a time, by his giving an account to the Sheriff what disposition he made of it. Our object seems to be to cut off all correspondence with friends, and indeed all the friends of Liberty here must suffer likewise. They say that it is against the law to say Slavery is wrong, and they have pronounced the woe; the decree has gone forth against all such offenders. I trust and qelieve there is a remnant who will trust and fear God more than man, even in this land of intolerance and usurpation; and I hope that all who love the Lord Jesus Christ in sincerity will remember us at the Throne of Grance, that we may be able to withstand all the fiery dats of the wicked; also, that our aged minister may be delivered from wicked and unreasonable men.

We feel deeply grateful for the interest manifested toward us by the American Missionary Association. May the blessing of the Most High attend your labors of love, is the prayer of your distant friend.—*N. Y. Tribune.*

AMERICAN AND FOREIGN Stereoscopic Emporium.

E. ANTHONY,

308 Broadway, N w York.

After May 1st, 1860, *at* 501 *BROADWAY, two doors from the St. Nicholas Hotel.*

The Stereoscope is the most instructive, interesting, entertaining amusing, and exciting of modern inventions.

None are too young, none too old, none too intelligent, none too uneducated, to acknowledge its worth and beauty.

No home is complete without it, and it must and will penetrate everywhere,

It presents to your view every part of the world, in all the relief, boldness, perspective, and sharpness of detail, as if you were on the spot.

Photographers are everywhere exploring Europe, Asia, Africa, America, in search of the grand and the beautiful, and the results of their skill are constantly enriching our stock.

We have an immense variety of paper Views of Scenes in Paris, London, England, Scotland, Ir land, Wales, France, Belgium, Holland, Switzerland, Spain, The Rhine, Versailles, St. Cloud, Flontainebleau, Tuilleries, Itally, Turkey, Egypt, Athens, the Holy Land, China, India, Crystal Palace, also Groups Historical amusing, marriage scenes, breakfast scenes, pic-nics statuary, &c., &c. An exquisite assortment of Illuminated Interiors of Palaces, Churchea and Cathedrals of France, Itally, &c., &c. The effect of these illuminated views is most remarkable.

Every Gentleman of Wealth and Refined taste should have in his drawing room some of our exqusite views on glass with a revolving stereoscope, showing 12. 25. 50 or 100 scenes, Nothing can be more fascinating, and one can offer no greater treat to a friend fond of the picturesque and the beautiful.

Anthony's Instantaneous Stereoscope Views are the latest Photographic wonder. They are taken in the fortieth part of a second, and everything no matter how rapidly it may be moving, is depicted as sharply and distinctly as if it had been perfectly at rest. This gives an additional value, for to the beauties of inanimate nature it adds the charm of life and motion. The process is a discovery of our own, and being unknown in Europe, we receive from London and Paris large orders for Anthony's Instantaneous Views of American life and scenery.

Among other things we have just published Stereoscopic Illustrations of the scene of the FULTON STREET PRAYER MEETINGS, in which many hearts feel an interest. The particulars of this will be found in our catalogues.

Our Catalogue of subjects and prices will be forwarded to any address on receipt of a stamp.

Parties at a distance sending us $3, $5, $10, $15, $20, or $25 can have a good instrument and such pictures as they may request, sent by express.

Veiws alone, (without instrument) can be sent by mail.

Parties who wish to be advised of everything really valuable in the line that comes out, may send us their names to place on record, and we will keep them posted at our own expense.

Men of leisure will find Photography a most fascinating and delightful amusement. We are prepared to fit out amateurs with everything necessary for their success together with instructions "How to take Stereoscopic Pictures."

E. ANTHONY.

Importer and Manufacturer of Photographic Materials Stereoscopes and Stereoscopic Views.

A Card to the Suffering.

The Rev. William Cosgrove, while laboring as a missionary in Japan, was cured of Consumption, when all other means had failed, by a receipe obtained from a learned physician residing in the great city of Jeddo. This recipe has cured great numbers who were suffering from consumption, Bronchitis, Sore Throat, Coughs, and Colds, and the debilily and nervous depression caused by these disorders.

Desirous of benefiting others, I will send this recipe which I have brought home with me, to all who need it, free of charge.

Ayer's Ague Cure.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

MOTHERS

Impresenting you with DR. FATON'S INFANTILE COR A L we desire to state its superiority over every nostrum that has or quack has heretofore offered you

First It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them. Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show; the very roots from which it is distilled being dug from the forests under the direction of Dr Faton, many of them by his own hands Fourthly—It is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation viz:

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY COLIC, &c, also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it cost so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising: for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

BLOOD FOOD.

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of physiology to the more immediate connection, and effect of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from the use of which Dr Bronson was restored to perfect health. Within six months after its introduction, over two thousand consumptives were effectually cured by it. If you have any complaints of a consumptive tendency, Cough, Cold, Head-ache, Palpitation of the Heart, Loss of of appetite, or pain in the side, lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from Nervous Debility, or your sleep is broken and disturbed, if your Spirits are Depressed or your Organs relaxed, you will find in this an unfailing remedy, by commencing with ten drops. If your Liver is torpid or diseased in any manner whatever one or two bottles will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of Dyspepsia, the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking only one bottle. In Male or Female complaints and Weakness the sufferer, after trying other remedies in vain, may rest assured, that a certain cure will result from the use of two or three bottles. The "BLOOD FOOD" is effectual in all cases of Eruptions, Salt Rheum Scrofulas and other like complaints. Pale and emaciated children and adults are immediately benefitted by its use; it gives strength to the body and color and beauty to the skin. Physicians of all schools are using it with wonderful success.

For full directions, see circulars. Price $1 per bottle.
